

Legislative Update 2019: Optometry Board

Public Chapter 61

This act states that an entity responsible for an AED program is immune from civil liability for personal injury caused by maintenance or use of an AED if such conduct does not rise to the level of willful or wanton misconduct or gross negligence.

This act took effect on March 28, 2019.

Public Chapter 117

This act adds a definition of “alternative treatments” to 63-1-164 pertaining to the restrictions and limitations on treating patients with opioids.

This act took effect April 9, 2019.

Public Chapter 124

This act makes a variety of small changes and additions to the TN Together opioid initiative put in place in 2018. One addition is allowing access to CSMD data to a healthcare practitioner under review by a quality improvement committee (QIC), as well as to the QIC, if the information is furnished by a healthcare practitioner who is the subject of the review by the QIC.

The requirement for e-prescribing of all schedule II substances by January 1, 2020 has been delayed to January 1, 2021 and is modified to require all schedule II through V prescriptions to be e-prescribed except under certain circumstances. The law also requires all pharmacy dispensing software vendors operating in the state to update their systems to allow for partial filling of controlled substances.

Definitions are given by this act to the terms palliative care, severe burn and major physical trauma. Along with its new definition, palliative care has now joined severe burn and major physical trauma as an exception to the opioid dosage limits otherwise required under TN Together.

An unintended consequence of last year’s Public Chapter 1039 was on cough syrup. This act establishes that the law does not apply to opioids approved by the FDA to treat upper respiratory symptoms or cough, but limits such cough syrup to a 14 day supply.

Also changed from last year's act is the requirement to partial fill. Partial filling of opioids is now permissive.

Finally, the opioid limits under have been simplified from the previous year's act. The twenty day supply and morphine milligram equivalent limit has been eliminated. Three day and ten day requirements remain the same. Instances such as more than minimally invasive surgery, which previously fell under the twenty day provision, now can be treated under the limits of the thirty day category.

This act took effect on April 9, 2019.

Public Chapter 195

The majority of this act pertains to boards governed by the Department of Commerce and Insurance. One small section applies to the health related boards. Currently, the health related boards have an expedited licensure process for military members and their spouses. Previously, a spouse of an active military member had to leave active employment to be eligible for this expedited process. This act removes that requirement. This section applies to all health related boards. The Commissioner of Health is permitted to promulgate rules, but rules are not needed to implement the act.

This act takes effect July 1, 2019.

Public Chapter 229

This act allows healthcare professionals to accept goods or services as payment in direct exchange of barter for healthcare services. Bartering is only permissible if the patient to whom services are provided is not covered by health insurance. All barter accepted by a healthcare professional must be submitted to the IRS annually. This act does not apply to healthcare services provided at a pain management clinic.

This act took effect April 30, 2019.

Public Chapter 243

This act mandates that an agency that requires a person applying for a license to engage in an occupation, trade, or profession in this state to take an examination must provide appropriate accommodations in accordance with the Americans with Disabilities Act (ADA). Any state agency that administers a required examination for licensure (except for examinations required

by federal law) shall promulgate rules in regard to eligibility criteria. This legislation was introduced to assist individuals with dyslexia.

This act took effect May 2, 2019 for the purpose of promulgating rules, and for all other purposes, takes effect July 1, 2020.

Public Chapter 255

The act permits a medical professional who has a current license to practice from another state, commonwealth territory, or the District of Columbia is exempt from the licensure requirements of such boards if: (1) the medical professional is a member of the armed forces; and (2) the medical professional is engaged in the practice of the medical profession listed in 68-1-101 through a partnership with the federal Innovative Readiness Training. The respective health boards may promulgate rules for implementation.

This act took effect April 18, 2019 for the purpose of promulgating rules, and for all other purposes, takes effect July 1, 2019.

Public Chapter 264

This act permits the attorney general, reporter, and personnel to access confidential data from the Controlled Substance Monitoring Database upon request for the purposes of investigation or litigation of a civil action. Release of this information to other parties must be accompanied by an appropriate protective order. This bill was brought by the Office of the Attorney General.

This act took effect April 30, 2019.

Public Chapter 327

This act requires the Commissioner of Health, by January 1, 2020, to study instances when co-prescribing of naloxone with an opioid is beneficial and publish the results to each prescribing board and to the board of pharmacy. The findings shall be included in the chronic pain guidelines adopted by the Chronic Pain Guidelines Committee.

This act took effect May 8, 2019.

Public Chapter 447

This act permits law enforcement agencies to subpoena materials and documents pertaining to an investigation conducted by the Department of Health prior to formal disciplinary charges being filed against the provider. This bill was brought by the Tennessee Bureau of Investigation.

This act went into effect May 22, 2019.
